PROFESSIONAL SUMMARY

Motivated Java Full Stack Developer with hands-on experience in Java, Spring Boot, REST APIs, MySQL, and MongoDB. Skilled in developing scalable web applications, designing RESTful APIs, and building responsive user interfaces using HTML and CSS. Experienced in end-to-end application development including backend services, database design, and frontend integration. Passionate about solving real-world problems through software development and continuous learning.

TECHNICAL SKILLS

Programming Languages: Java

Frameworks & APIs: Spring Boot, RESTful APIs

Frontend Technologies: HTML, CSS, JavaScript

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Concepts: Object-Oriented Programming (OOP), CRUD Operations, MVC Architecture

INTERNSHIPS

Java Backend Intern

EduNoVerse Tech Solutions | Aug 2025 – Oct 2025

- Developed and maintained Java-based backend modules as part of the software development team.
- Designed and consumed RESTful APIs to support application features.
- Gained practical knowledge of the Software Development Life Cycle (SDLC) and Agile practices.
- Collaborated with team members using Git for version control and code management.

Front-End Development Intern

ThinkChamp Pvt. Ltd. | Jan 2023 – Feb 2023

- Built responsive and cross-browser-compatible user interfaces using HTML and CSS.
- Improved page layout and UI/UX consistency across multiple web pages.
- Developed foundational skills in frontend development and web design principles.

PROJECTS

Placement Preparation Tracker

Java | Spring Boot | JavaScript | MySQL | REST APIs | HTML | CSS

- Developed a full-stack web application to help students track placement preparation activities and monitor learning progress.
- Implemented task management, progress tracking, and resource organization features.
- Designed and exposed RESTful APIs for seamless communication between frontend and backend.
- Built a responsive user interface integrated with Spring Boot backend services.

Movie Ticket Booking System

Java | Spring Boot | JavaScript | MySQL | REST APIs | HTML | CSS

- Built a full-stack movie ticket booking application supporting movie browsing, seat selection, and reservation management.
- Implemented CRUD operations for movies, theatres, and bookings using Spring Boot and MySQL.
- Developed RESTful APIs to handle movie data, ticket transactions, and user interactions.
- Created a responsive frontend interface providing real-time booking functionality.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science / Information Technology

Siddharth Institute of Engineering and Technology

CERTIFICATIONS

- Java Programming – Udemy
- SQL (Basic) – HackerRank
- Front-End Development – ThinkChamp Pvt. Ltd.
